

Dear Supporter and Friend,

Thank you for your support and participation in the past John Dowell Fore A Cure Benefit Golf Outings. We hope to build on our 2005 and 2006 years successes to help John and HDSA in their fight for a cure for Huntington's Disease.

As you know, Huntington's Disease (HD), is an inherited, degenerative brain disorder that affects 300,000 people nationwide. Sadly, it strikes people in the prime of their lives, as with John Dowell. It has been said that HD is like having Parkinson's, Alzheimer's, MS and mental illness all in one. Although there is no known cure or effective treatment to date, the science and research surrounding this disease are showing great promise and that's why we need your help.

John's health continues to deteriorate, but we need to continue the fight against HD. Although John may not win his battle with this disease, we hope that with your support, the next generation will win this fight.

We are once again planning a golf outing, followed by a cookout with entertainment, prizes, and a raffle. The event will be held on Saturday, August 4, 2007 at Pine Meadow Golf Course. We invite you to join us in honoring the Dowell family and others by participating in and supporting the upcoming fundraiser. By attending either the golf tournament and/or the cookout, being a sponsor, or donating prizes, you will make a huge difference in the fight for a cure.

All donors will be recognized during the event. A dynamic group of volunteers are working with us to put these events together. We thank you in advance for your consideration. If you have any further questions or comments, please feel free to contact Jeff Tollefson at (715) 379-4469.

Sincerely,

Jeff Tollefson, Coordinator
